CELTRICS LLC

Our Company

Celtrics LLC is a Mechanical, Electrical, and Plumbing (MEP) professional engineering, design, and project management firm that supports federal, state, and local government, private-for-profit and non-profit clients. As a customer-focused, quality-driven organization, Celtrics uses industry best practices for continuous improvement, process streamlining, and increased quality to exceed our customers' operational goals and expectations. Past experience includes DoD customers and projects including mass notification, fire alarm, project management, and design of Air Force base infrastructure.

Core Competencies

We provide solutions and services to our clients which are designed to maximize their return on investment while:

- Building partnerships with our clients and employees to support their success.
- Effectively meeting our clients' needs through high quality and efficient services.
- Doing business with the highest standards of integrity and excellence in all we do.

Our Capabilities

- **Mechanical Design:** Celtrics possesses expertise in providing innovative mechanical engineering solutions. This includes designing and optimizing mechanical systems to meet specific client needs.
- **Network Design Services:** They offer specialized services for network design and optimization, ensuring robust and efficient network infrastructure tailored to the requirements of various projects.
- **Mass Notification Systems:** They have expertise in developing mass notification solutions, integration with existing fire alarms, essential for effective communication during emergencies and critical situations.
- **Electrical Design:** Celtrics offers electrical engineering design services for diverse applications, including power systems, lighting, and control systems, tailored to meet the specific needs of each project.
- **Plumbing Design:** Celtrics specializes in plumbing system design and optimization, ensuring efficient and reliable plumbing solutions for various types of facilities.
- **Energy Efficiency Consulting:** They provide comprehensive design and planning services aimed at increasing the energy efficiency of existing heating and cooling systems. Celtrics also specializes in connecting customers with incentives and utility providers to maximize energy savings.

Past Performance

- **Prime Contract Holder, Department of Veterans Affairs, VSN 01, 36C24123R0119- C1DA--608-22-113: N69, Remediate & Renovation due to Water Intrusion Design:** Provide A/E professional services for Project 608-22-113, encompassing design development, construction documents, specifications, cost estimates, construction period services, and site visits. The project aims to remediate and renovate Room N69 due to water intrusion, relocate walls to create a new Interior Design Storage Room (N70) and reposition Room N68 (Soiled Linen), and apply an epoxy floor finish with low VOC materials in Rooms N69 and N70. The renovation will ensure the new design meets specific structural and environmental standards.
